QUIZES

# HELLO!

Welcome to another 100% Free Quiz from Goose's Quizzes, in honour of our 100th podcast episode. Whether you're already an avid listener of GQHQPQ or just stopping by, we're happy to have you! This one requires a little explanation, as it differs from our usual format a tad -- seasoned players of the Percentage Game will already have an inkling of what to expect.

You're probably aware that Goose's Quizzes host over 30 [quiz nights](#) in Edinburgh, Glasgow, and beyond. What you may not know is that we keep diligent records of each question's performance, so we can adapt our future quizzes to the perfect level of difficulty for quiz newbies and pros alike. We do love a statistic!

What this means for the podcast, and for you, is that our Percentage Game questions have two possible answers: 1) the correct, factual response; and 2) the percentage of real live Goose's Quizzes pub quiz teams who got the question correct on the night -- the easier the question, the higher the percentage will be!

You can do the quiz as a traditional Q&A, as a percentage-only game, or give yourselves double the challenge by mixing it up. If you'd like to practice a little, we recommend listening to an episode or few before you get started: [click here](#) to listen via the website, or search for Goose's Quizzes on your preferred podcast app.

The quiz is made up of our 20 hardest, 20 easiest, and 10 middle-est questions from vintage GQHQPQ episodes ... but we're not telling you which are which. Best of luck!

# ROUND 1
